Harmar Announces LiftSquad, a National Installation Network

Sarasota, October 1, 2018 (Newswire.com) - Harmar Mobility is pleased to formally announce the new LiftSquad Installation Support Network. As a leading manufacturer in the mobility industry, Harmar has long maintained a network of trained and certified installation professionals.

By launching LiftSquad, Harmar creates an even stronger platform for showcasing these dedicated professionals. LiftSquad has the opportunity to serve nearly 1,000 Veterans every month, along with private purchases from our dealer network across the country.

For consumers, LiftSquad is a mark of confidence. Every LiftSquad installer is personally trained and certified by Harmar through a rigorous training program. The LiftSquad brand represents confidence and peace of mind for a consumer as they can trust that their Harmar product will be installed properly for safe and worry-free operation.

Background. For more than 20 years Harmar has been designing and building solutions for people with mobility challenges. The Harmar family of products provides confidence and independence for our neighbors who encounter obstacles every day. We are proud to manufacture, here in the United States, stair lifts, vertical platform lifts, and a wide range of scooter and wheelchair carriers that fit nearly any vehicle. Founded in 1998, Harmar has a history of growth that comes from evolving our products so that they enrich the lives of our customers.
