

## Essential Critical Dealer/Installer

Date: March 26<sup>th</sup>, 2020

Harmar Mobility LLC will continue operations as an essential business under the various “shelter in place” and “stay at home” orders in various states and municipalities. Harmar Mobility manufactures medical equipment such as power wheelchair lifts, stair lifts and wheelchair lifts and is therefore exempt from orders such as mandatory closures and shelter-in-place orders. Harmar is a supplier of medical products to the US Government with Federal Supply Schedules as follows:

Federal Supply Schedule # 36F79718D0537 (65IIF)

Federal Supply Schedule # 36F79718D0572 (65IIA)

Harmar’s dealers, distributors and installers are also considered essential businesses supplying, delivering and installing medical equipment during this public health crisis. Because you are a necessary part of this supply chain, we are providing you with this notice certifying that you are essential to maintaining our operations and are therefore covered by Harmar Mobility LLC’s designation as essential by government authorities.

It is mandatory that your businesses be able to continue to operate so that we can continue to provide this valuable service. This designation is consistent with the United States Department of Homeland Security’s March 19 Memorandum Identifying Essential Critical Infrastructure Workers.

We ask any law enforcement or military personnel to make every effort to assist this business in performing their public health duties. Any questions can be directed to 941-308-7381.

Thank you,

Steven E. Dawson, CEO
